

TONDO

- ✓ Powder coated aluminium frame
- ✓ Hand woven rope
- ✓ Modular

Step into a world of mesmerising design with the Tondo collection, where each piece weaves a story of comfort and versatility. The hallmark of this collection lies in the craftsmanship of a thick, multi-coloured 30mm rope. It is carefully intertwined into a visually captivating pattern that defines the essence of the entire collection.

FRAME

Powder coated aluminium treated with a sandy structured coating, making the material water-repellent, stain- and scratch-resistant.

ROPE

Hand woven rope that does not discolour under the influence of the sun.

TABLE TOP

Premium teak with good resistance to the effects of UV radiation, chlorine and seawater.

CUSHIONS

The filling offers the comfort of an interior cushion, featuring a water-repellent interlining that is mildew-resistant and weatherproof. It is characterized by its ability to quickly bounce back after pressure, unlike memory foam which sinks and rises back very slowly.

PROTECTION

PROTECTION COVER

We always suggest storing your furniture in a dry place when not in use or using a protection cover to avoid any blurring or damage.

Always make sure that furniture, cushions and covers are completely dry before covering furniture.

MAINTENANCE

MAINTENANCE ALUMINIUM

Powder-coated aluminium is easily maintained with clear water and pH-neutral soap. Clean using a damp cloth, mild soap and water. Avoid using sharp tools to prevent scratches. For minor surface marks on your aluminium frame, you can use a Corrector Pen. Apply a thin layer and allow the surface to dry for at least 6 minutes before using the furniture again.

Corrector pen
A03 linen

MAINTENANCE ROPE

Rope requires hardly any maintenance and is easy to clean with clear water and pH-neutral soap. For spot cleaning, use a soft cloth with a mild soap & rinse the surface thoroughly with water.

MAINTENANCE TEAK

You can treat the teak table tops with a teak protector to maintain its natural honey-brown colour for a longer time. A teak cleaner can be used to restore the teak to its natural colour. For regular cleaning you can use water and pH-neutral soap with a soft cloth or sponge.

Colour protector
natural teak

MAINTENANCE CERAMIC

Correctly maintained ceramics will not require extraordinary cleaning. For regular cleaning, use hot water and a pH-neutral soap with a soft cloth or sponge. Do not use a high pressure cleaner or any abrasive sponges.

MAINTENANCE CUSHIONS

Before use, you can apply an invisible film to make your cushions stain and water repellent by using a textile protector. For general cleaning you can use water and a pH-neutral soap or Textile Cleaner.
